STEP 4: Promote Students

Navigate to Admin Main and then to Student - Multi View.

(Admin Main > Student - Multi View)

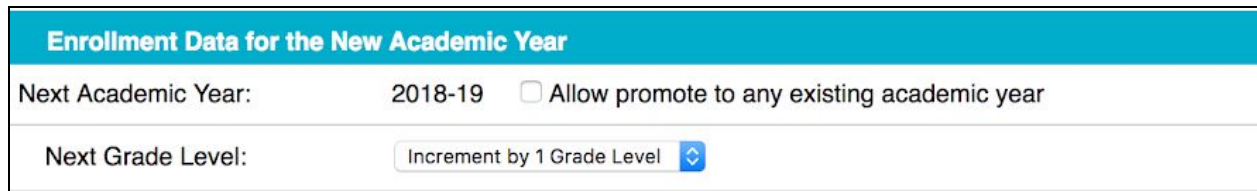

Switch to the 2017-18 academic year. Select “Promote/Transfer Students.”

Select “Promote/Retain students within a building.”

The screenshot shows the 'Promote/Transfer Students' interface. At the top, there is a breadcrumb trail: 'Main > Students > Promote/Transfer Students'. Below this, the 'Current School' is 'Nghe High School' and the 'Academic Year' is '2017-18'. Under the 'Type of Move:' section, three radio button options are listed: 'Promote/Retain students within a building' (which is selected), 'Promote students to a different building', and 'Transfer students to a different building in the current year'. At the bottom left, there is a 'Back' button and a checkbox for 'Show Inactive Students'.

On the new page, ensure the first line reads “Next Academic Year: 2018-19” and the second line reads “Next Grade Level: Increment by 1 Grade Level.”

The screenshot shows the 'Enrollment Data for the New Academic Year' interface. It features two main input fields. The first is 'Next Academic Year:' with the value '2018-19' and an unchecked checkbox for 'Allow promote to any existing academic year'. The second is 'Next Grade Level:' with a dropdown menu currently set to 'Increment by 1 Grade Level'.

The remaining fields are optional and left blank by most schools.

All students, with the exception of your highest grade level, are automatically checked below. If some of the students are not going to be promoted, or if some of them will not be at your school in the 2018-19 academic year, you can uncheck them from the list.

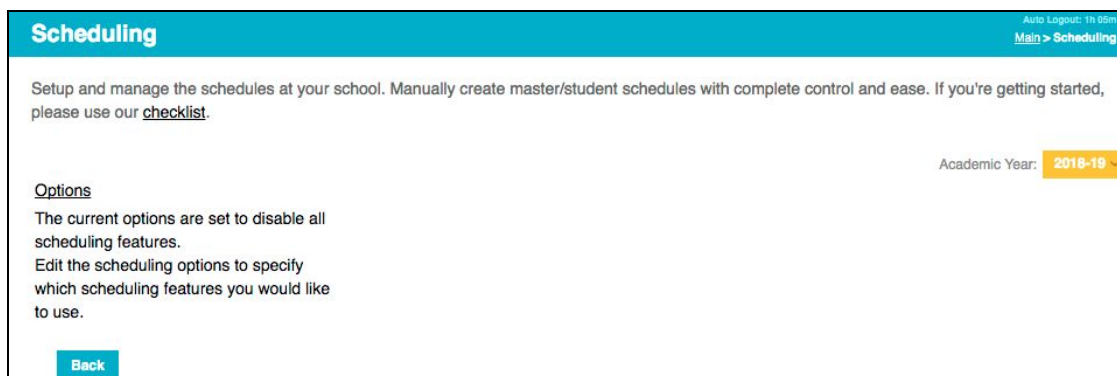

If all students that are to be promoted by one grade level are checked, you can select “Promote Students.”

**Note: If you have students who are being retained a year, you can uncheck them and promote the rest of your students. You will then need to complete this process again, but this time only select students from the list that are being retained, and select “Keep the Same Grade Level” from the “Next Grade Level:” dropdown.*
